Multi-Input with single HDMI output

Easy installation

All our SmartPanel models in the Active Series are auto-sensing and auto-switching multimedia connectivity panels. It allows guests to play their own movies, music, and games on the Hotel TV by connecting their portable devices through Audio/Video ports on our SmartPanel via a single HDMI cable.

- ▶ AutoSense technology for true Plug and Play. SmartPanel automatically senses the content or device.
- ▶ VGA and PC audio inputs lets guest enjoy laptop content on your big screen televisions
- ▶ Multiple panel colour options
- ▶ Single HDMI output, installation is a snap and easy with minimal tangled cables
- ▶ HDMI Interface is designed specifically for laptops, new digital video recorders and other equipment
- ▶ RJ45 broadband interface enables guests to HSPA easily (RJ-11 analogue telephone interface optional)
- ▶ Power-saving AutoSleep mode reduces energy costs and extends lifespan
- ▶ AV input for camcorders, game consoles, DVD players and more
- ▶ Optional Bluetooth for your audio devices, connect to the TV wirelessly
- ▶ International or US power sockets and smart USB charging ports that auto detect, and supply the required power for smartphone or tablet
- ▶ International and US power sockets and USB charging sockets keeps guests powered up and ready
- ▶ Brushed Aluminium, Brushed Stainless Steel and Acrylic surface options available
- ▶ Optional CEC control over the HDMI protocol enables direct command and control of CEC-enabled television
